DETAILED ACTION

This action is responsive to the Pre-Appeal conference decision on 11/17/05. Previously, claims 1-2, 6, and 14-26 were canceled. Claims 27-36 were newly added. Claims 3-5 were amended. Accordingly claims 3-5, 7-13, and 27-36 are pending.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 3-5 and 27-29, drawn to determining whether a data exceeds a capacity based upon buffer size and if so, forming a subset data that does not exceed the capacity, classified in class 709, subclass 224.
- II. Claims 7-13 and 30-36, drawn to format conversion based upon description information, classified in class 709, subclass 246.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as being able to convert to an application to a different format. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to the applicant's representatives on 1/20/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
